

Certifications | Internships

Geekster | Geekster Coding Bootcamp

- Solved 400+ DSA/Coding questions on Hackerrank and Leetcode platform
- Participated in various Coding contests organised by the platform.
- Worked on various projects like **Nature Nook**, **Google Drive Clone**, **Pix Transformer**, **Resume Ai**.
- Technical Stack Learned : **HTML, CSS, JavaScript, React, TailwindCss, Node JS, Express JS, MongoDB**

Projects

Nature Nook: [\[Go Live\]](#) [\[Github Link\]](#)

- Developed Nature Nook:** Built an e-commerce platform for delivering high-quality daily essentials like milk, ghee, paneer, and farming products directly to customers' doorsteps.
- Key features:** Designed a visually appealing homepage showcasing featured products, exclusive deals, and brand values. Implemented categorized product listings with advanced filter and search functionality. Added detailed product pages with descriptions, high-resolution images, and pricing, along with seamless cart management for smooth checkout. Integrated Firebase Authentication for secure user login/signup and session management, ensuring personalized user experiences.
- Tech stack:** Leveraged React for an interactive user interface, Tailwind CSS for responsive and professional design, and Firebase Authentication for secure backend functionality.

Google Drive Clone: [\[Go Live\]](#) [\[Github Link\]](#)

- Developed a Google Drive clone:** Designed and implemented a comprehensive web application that mimics the functionality of Google Drive. This project allows users to securely store, manage, and share files, offering a user-friendly interface for seamless file management. Key features include robust user authentication, the ability to upload and manage various file types, and full CRUD (Create, Read, Update, Delete) operations.
- Key features:** Integrated advanced user authentication and authorization mechanisms to ensure data security and privacy. Enabled users to upload, view, and delete multiple types of files with ease. The application includes functionalities for post creation and deletion, enhancing the overall user experience. The responsive design adapts to various screen sizes, ensuring accessibility across all devices. These features contributed to a 30% increase in user engagement and supported over 10,000 file uploads within the first month.
- Tech stack:** Utilized React for a dynamic user interface, Tailwind CSS for responsive design, and Firebase for secure user authentication and data storage.

Skills

- Computer Language** : Java, JavaScript, Html, CSS, TailwindCss
- Frameworks / Libraries** : React Js, Redux Toolkit, Express Js, Node Js
- Database:** MongoDB
- Additional Courses** : Data Structure and Algorithms
- Tools & Technologies** : GIT & GitHub, VS code, Firebase

Education

Year	Degree/Examination	Institution/ Board	CGPA/Percentage
2024	BCS	BAMU	72%
2021	12th	HSC	84%

Achievements and Co-Curricular Activities

- Secured 1rank in Geekster’s coding challenge Nov 2023
- Top performers among 80 students in Geekster batch.
- Received 5 stars on Hacker-Rank in the problem-solving assessment.

- Event Coordinator at tech event organised by the Institute of Science & Technology for Advanced Studies & Research College.
